**A Garden in Your House?
On Your Wall?**

A Garden on Your Wall with Living Panels

**No Problem.
You Can Do It!**

**With Repkin Biosystems products you
can grow plants on your wall!**

**The panels are only 24 inches by 24
inches and 2 inches thick.**

You can have one, twenty, or more.

It's beautiful and much more.

**Engineers at NASA have demonstrated
that plants have the ability to remove
common household air pollution.**
